MISSION, VALUES & SERVICES

MISSION

Collaborative Leadership Team believes in a different approach to doing work.

Individuals, Teams and Organizations who use this approach will adapt more quickly and lower their cost of change.

We use this different approach in our work making us a living laboratory for our clients.

Our Training and Coaching results in Individuals, Teams and Organizations sustaining a new way of doing work.

WE VALUE

RESPECT: We meet people where they are at and work together in the learning process to decide where to go next in their journey.

COURAGE: We act courageously to help our clients see and say what they cannot, even at the expense of future business.

TRANSPARENCY: We are open and honest with each other and our clients.

JOY: We take a genuine pride in our work and do not take ourselves too seriously.

We believe that by living these values, the value to our clients will be judged by the business results that we enable.
